B = _____	

Measurement (C) Shelf Depth
←————→
C = _____
What is the Max Allowable Overhang?

Customer Name _____

Store # or Location _____

Contact Person _____

Contact Person Ph _____

Additional info required.

1. Total number of shelves available _____
2. Complete part inventory
 - Part #
 - Qty On Hand
 - Min Max
3. Is the top shelf used for overstock?
 - Yes
 - No
4. When measuring width, measure **usable shelf space**. If shelf supports interfere with usable space, measure the shelf between the supports. It is critical to verify all shelves are the same spacing.
5. If there are multiple locations, please provide the detail for each location separately.
Please allow 2 weeks for shelf mapping to be completed and data returned to you.
